

Accessibility Statement

This Accessibility Statement applies to: www.essentialmentalhealthcare.com

We Value Digital Inclusion

In our effort to help provide a fully accessible and optimized experience for our website visitors, www.essentialmentalhealthcare.com has taken careful measures to help ensure an enhanced user experience, whether the website visitor is using assistive technologies such as a screen reader, magnifier or other assistive technology to access the website.

This website is monitored and tested by [AudioEye](#), a third-party provider of Web Accessibility testing and monitoring. Results of automated testing are reported by AudioEye in www.essentialmentalhealthcare.com's portal. Further, to the extent www.essentialmentalhealthcare.com engages AudioEye for expert review, remediation and user testing by people with disabilities, AudioEye either remediates discovered issues or provides a Source Feedback Report (SFR) for www.essentialmentalhealthcare.com to remediate the issue. Finally, AudioEye continually improves and refines its existing solutions.

AudioEye Trusted Certification

The AudioEye Trusted Certification seal represents a commitment to accessibility and digital inclusion. The AudioEye certification process involves automatic and, if applicable, expert review, remediation and user testing to increase conformance with Web Content Accessibility Guidelines (WCAG) 2.2, Level AA Success Criteria. AudioEye and www.essentialmentalhealthcare.com continue to collaborate in an ongoing effort to help maintain conformance with the success criteria and help provide an accessible user experience for all website visitors.

AudioEye certifies that www.essentialmentalhealthcare.com has engaged AudioEye to help www.essentialmentalhealthcare.com conform with WCAG 2.2 Level, AA Success Criteria.

AudioEye uses the following web browsers and web-based assistive technologies in testing its solutions:

The most recent and immediately prior two versions of any desktop standards-compliant web browser that represents over 5% market share

Web-Based Assistive Technologies such as screen readers (i.e., JAWS, NVDA, and VoiceOver), magnification, voice dictation, and keyboard-only navigation generally favored by the disability community

Web Accessibility Guidelines

Please see more information about [WCAG compliance](#).

Improving the User Experience for Everyone

www.essentialmentalhealthcare.com has leveraged the Web Content Accessibility Guidelines (WCAG) 2.2 as reference to help ensure the web content made available from this website is more accessible for individuals with disabilities and user friendly for everyone. These globally recognized best practices (as recommended by the World Wide Web Consortium) consist of three levels of accessibility measurement (A, AA, and AAA). AudioEye references Level AA of these guidelines in helping provide accessibility.

Feedback

AudioEye is available to assist website visitors with any issues accessing content and the various services and functions made available across www.essentialmentalhealthcare.com. Website visitors are encouraged to engage with the Help Desk to report and troubleshoot web accessibility related issues.

The AudioEye Visual Toolkit

Providing Users with a Free and Customizable Assistive Utility

In addition to the above-mentioned techniques and strategies – and since not all website visitors have access to assistive tools such as screen readers – we have provided a complementary website personalization tool, the AudioEye Visual Toolkit, that allows website visitors to customize their user experience.

If the AudioEye Visual Toolkit is not enabled by default, users can enable it by

selecting the Activate AudioEye Toolkit button below. Once activated, the Accessibility icon should be visible on any page of this website. Users can then engage the toolkit by interacting with the Accessibility icon.

Core Features of AudioEye Visual Toolkit

The Visual Toolkit

The Visual Toolkit can be used to customize the visual display of the website.

Page Elements Navigation

Users can navigate easily through any page by element, or content hierarchy.

AudioEye Help Desk

Users can report accessibility and usability related issues.

Third-Party Sites

Throughout this website, we may make use of different third-party websites such as Facebook, Google Maps, X (formerly known as Twitter), LinkedIn, Instagram, and YouTube to spread news and information about www.essentialmentalhealthcare.com's products and services. These websites, which are not controlled by www.essentialmentalhealthcare.com, may present challenges for individuals with disabilities that we are not able to control or remedy.

As made publicly available, here are the Accessibility Policies provided from these third-party websites:
